

Dear League Officer,

Taking on the role of a league officer means different things to different people. But becoming a league officer means you love bowling and want to help provide an avenue of competition and fun for your fellow bowlers.

Those of us at USBC feel the same way and **we appreciate your dedication and responsibility as a league officer.**

As you already are aware, USBC will have a dues increase starting in the fall. Please don't hesitate to lean on your local association should you need assistance, and make sure your league memberships are processed in a timely manner.

We understand any increase in dues will create a buzz among certain league bowlers but this also is an opportunity to remind everyone what USBC stands for and how they are part of a much larger picture simply by being a USBC member.

We've provided a postcard to explain to members why certifying their league and becoming a USBC member is important to bowling. Please provide one to each of your league's team captains. Bowling has so many great programs and opportunities, thanks to their support. A digital copy can be found at BOWL.com/ARC under League Resources.

We hope you have a great season and we look forward to working with you for many more seasons.

Thanks!

Your Friends in Bowling at USBC
